

DANDARAGAN

Thursday 22 September Dandaragan Club 11.00am

Cost \$ 20 members \$ 50 Non Members

“Welcome and a short history of perennials and Evergreen”

Bob Wilson

“The blood, sweat and tears of farming systems change”

Tim Wiley

“The Carbon Farming Initiative – what’s in it for me?”

Tim Wiley

“Perennials in WA - we’ve come a long way in a short time, but where to next?” Phil Barrett-Lennard

Lunch

Travel to David Cook’s farm

Paddock 1: Finishing grass fed cattle using perennial pastures

“Why are Paterson’s Curse and Blue Lupins killing cows?”

Marion Seymour

Paddock 2: Improving soils the organic way

Paddock 3: Using Blue Lupins to fix free nitrogen

“Where will my nitrogen come from if I kill my Blue Lupins?”

Brad Nutt

“Is Signal Grass the cause of photosensitivity in perennials?”

Geoff Moore

Paddock 4: Low cost infrastructure for large scale rotational grazing

Travel to Graham Johnson’s farm

Paddock 1: Perennial pastures sown between alleys of fodder shrubs

Paddock 2: Dealing with poor sand - pasture cropping vs claying?

“Is Pasture Cropping just a grazier’s diesel fix or a valid way to improve profitability from perennial pastures?”

Phil Barrett-Lennard

“Lessons to be learnt from recent interstate perennial pasture R&D”

Cameron Allan (MLA)

Return to Dandaragan Club for close and join the committee and guests for drinks
